Andrew Sinkinson

Greater Manchester M24 **T:** 07961221274   **E:** a.sinkinson84@gmail.com

As a front-end developer, I specialize in HTML, CSS, and JavaScript, with a strong emphasis on React for building dynamic and responsive user interfaces. I excel in creating visually appealing and interactive web applications, leveraging React's component-based structure for modularity. Proficient in responsive web design, I ensure seamless user experiences across various devices. My expertise includes state management using React libraries, and adept debugging skills.

Project List:

React-Portfolio: https://github.com/Duouk2000/React-Portfolio

- This website shows my Portfolio page created using React and React-Bootstrap.

Literary-Lounge: https://github.com/Duouk2000/Literary-Lounge

- Literary Lounge is an innovative app designed to enhance your reading experience. With Literary Lounge, you can easily access information about books by searching for the author. Additionally, the app provides recommendations for drinks to accompany your reading, creating a cozy and enjoyable atmosphere for literary exploration.

Team-Profile-Generator: https://github.com/Duouk2000/Team-Profile-Generator

- The aim of this project is to make a Team Profile Generator that can be accessed through the Terminal, will take input from the user and then generate a ready to use HTML document.

Professional-README-Generator: https://github.com/Duouk2000/Professional-README-Generator

- The aim of this project is to create a README.md generator after the user has answered each question in the terminal.

Weather-Dashboard: https://github.com/Duouk2000/Weather-Dashboard

- The aim of this project is to create a website that can display s city's weather for the current day and forecast the city's weather for the next 5 days. Searches are saved to buttons which can be clicked on to pull weather for that particular city back up. Data is saved to local storage so that buttons appear each time the website is loaded.
